## PROJECT(S)

### GATE PASS FOR COLLEGE

Firestore|Node.js|SpringBoot|React

**Problem:** Students face difficulties in applying for gate passes manually, as the process is time-consuming and involves extensive paperwork. Similarly, faculty members face challenges in maintaining transparency and accountability when granting permission for students to leave the college premises

- A dynamic website .
- Students can submit gate pass requests through their dashboard.
- The HOD can view, approve, or reject the gate pass requests.
- Security personnel can see the status of approved requests.
- They can mark students as "out" once they leave the premises.
- Students can track the real-time status of their gate pass requests.

### Habit Tracker (RemindYou)
